

Independent Electric 'Water Filled' Radiators

Elite Heaters Ltd - info@eliteheaters.co.uk Website - www.eliteheaters.co.uk

Can be used as 'stand alone' radiators, using just the inbuilt rotary thermostat, or fully controlled for temperatures and heating timings using the optional RFC Digital Control Panel

Each radiator has a manual thermostat, and an integral radio receiver unit.

Wireless (433MHz) and installed in minutes.

One or multiple radiators can be controlled by a battery operated RFC controller in the same 'heating zone' for the same temperature and heating timings.

By using additional RFC controllers your heated areas can be efficiently 'zoned' for different temperatures and heating timings. e.g. living areas and bedrooms. Seven day programmable with up to six temperature changes per day.

Your heating can be easily programmed for your comfort temperature times. A 'set back' lower temperature setting is also provided to use when you are out, or at night times. This allows stops the property completely cooling out, allowing a more efficient warm up time back to your comfort temperature when required.

The day program can be overridden by: Holiday, Boost, Advance , Set Back or Quick Adjust. Precision electronic thermostat. Accurate to 1 oC, with a 0.1 oC resolution. Temp display in C or o F (selectable).

Clock display in 12 or 24 hour (selectable). Operates on two AA alkaline batteries (supplied) Battery life at least a year. Warns when batteries are low. If you replace the batteries the only thing you have to reset is the time, as all the programs are held in memory. No unsightly wall wiring is required.

Electric 'Water Filled' Radiator Dimensions

Model	Dimensions Height x Width cm	kW / BTU	Weight Kg	Approx. Room Size Guide m3
4100 RFC	40 x 100	1.5 / 3755	33	30 – 35
4140 RFC	40 x 140	2.0 / 5548	44	35 – 45
4160 RFC	40 x 160	2.0 / 6282	50	35 – 45
6040 RFC	60 x 40	0.9 / 1366	24	15 – 25
6060 RFC	60 x 60	0.9 / 2731	29	20 - 30
6080 RFC	60 x 80	1.5 / 3885	40	35 - 40
6100 RFC	60 x 100	2.0 / 5121	50	40 – 50
6120 RFC	60 x 120	2.0 / 6487	55	40 – 55
RFC Radio Controller	Used with RFC Radiator Versions	Controls a heating zone	Control 1 or multiple radiators together in one heating zone	1.5 m of cable & standard plug
