

Economy+ Electric Radiators

Filled with heat retaining 'High-Grade Silica' which gives a constant smooth release of warmth in operation

Home, Flat, Office, Upgrades, Extension, Conservatory

Easy Install, Electric Central Heating – Without the Pipes !

The new Economy+ Electric Radiator is Made in Britain, and is an attractive, quick and efficient way to heat your Home, Flat, Office, Conservatory or Conversion. Controlled by a colour coded, in-built timer and thermostat making the Economy+ radiator extremely energy efficient and LOT 20 compliant

**** Please Note **** – each Economy+ Radiator has its own integral LCD heating programmer, so does not require the additional Control Panel

Dimensions

'Standard Height' 565 mm, and 'Low Profile' 390 mm versions are also available, very suitable for low sills and dwarf conservatory walls. All Economy+ Radiators are 73 mm deep (113mm total including the wall brackets)

Efficient 'Smooth Heat Release' Design

Filled with heat retaining high-grade silica which gives a constant smooth release of warmth in operation

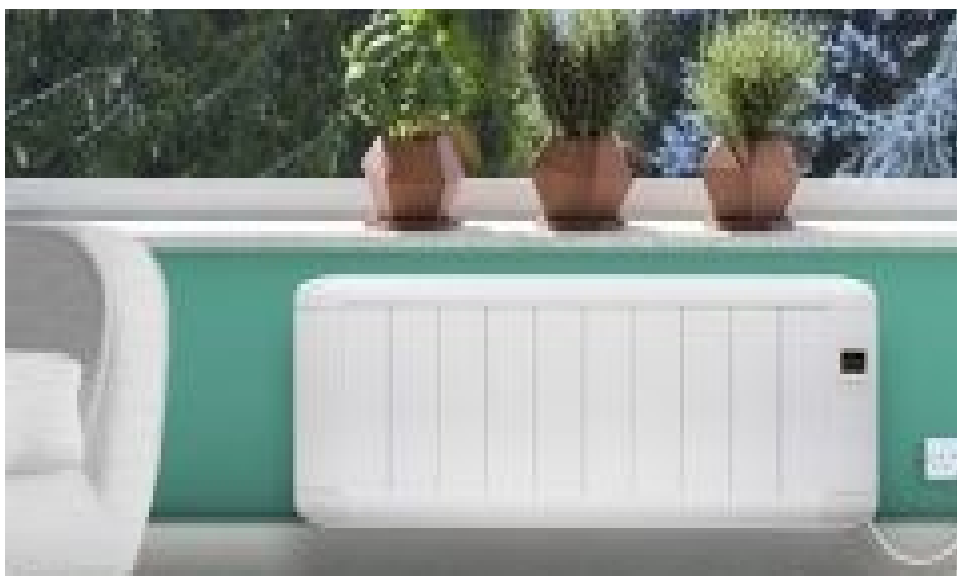

Excellent heating comfort – no exposed to air heating elements, so no scorched or overdried air in the room or bedroom

Even when the radiator thermostat has switched off the power, the radiator continues to emit conserved warmth from within the silica core, ensuring the all important room convection current is maintained

This ensures a minimal difference between ceiling height temperature and floor level, giving maximum economy in use

Easy to Install

Wall-mounted and available in multiple outputs and sizes. No boiler maintenance, pipes, pumps or plumbing. Simply fix to your wall with the supplied brackets and plug into a standard UK socket. Quantity discount available for 2 + multiple orders. Please request a quotation

- Silica filled for high-quality heat and energy efficient
- Fully programmable timer with in-built thermostat
- 2 year (24 months) warranty
- Internal smart heating software maintains required room temperature in eco-saving mode
- Plug in or spur wire into standard 13 amp UK electrical supply
- Easy to wall-mount with supplied brackets
- Lot 20 efficiency standards compliant
- Maintenance free fully sealed unit

Delivery

Delivery is generally inclusive for the majority of the mainland UK
 For N.I. and anything above the Glasgow – Edinburgh line please contact us, as additional charges may need to be applied due to the higher cost of transport
